## Design Revolution: Redefining Boundaries

Welcome to the Showcase House, where innovation meets inspiration. Each year, we strive to create more connections and push ourselves to stay ahead with our designs and colors. We're always thinking about ways to help your showroom stand out and stay fresh. The purpose of our Showcase House is to inspire Ohio builders to continually create innovative designs and showcase new colors. In this unique setting, you'll have the opportunity to appreciate how vastly different designs from different builders can be paired beautifully.

A crucial part of our vision lies in the artistry of finishes and color selections. We are proud to collaborate with Sherwin-Williams brands, M.L. Campbell, Autumn Mill, and Acroma Pro whose expertise in premium coatings and finishes brings depth, durability, and rich character to each design. Their commitment to quality ensures that every hue and texture enhances the natural beauty of the wood, seamlessly complementing the craftsmanship of each piece.

Through the selection process, our panel of judges curated pieces aligning with the 2025 theme categories:

- Woven elements
- Curved edges
- Innovation
- Elevated classics
- Highlighting the beauty of wooden hardware and grain patterns

As you tour this space, meticulously styled by S. Flynn Design, take notes on elements you can apply to your showroom to infuse inspiration with fresh designs and colors in your specific marketplace. We hope you will feel the allure and comfort of this home curated for you. Every individual involved, from the designers, builders, and finishers to the supporters, has collaborated over the past year to bring this vision to life. If you encounter them during your visit, share your thoughts – they'd be excited to hear from you.

## The Entry Room

We hope you feel at home as you enter our Showcase house. Each piece we've placed has a purpose to bring people together and enhance a home. Everything you will see has been masterfully crafted by the top Amish builders in Ohio, from their family to yours.

### ALLENTOWN TV STAND

White Oak  
Warm Toffee Stain

Designed by Nisley Cabinet | Booth G299

A dining room with a wooden table and upholstered chairs. The table is set with plates, glasses, and a centerpiece of a vase with dried flowers. A chandelier hangs above the table. In the background, there is a sideboard with a wooden top and grey cabinets, and a window with sheer curtains. The room has a warm, inviting atmosphere with natural light coming from the window.

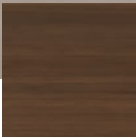

## The Dining Room

To elevate the classics, we've returned to sturdy hardwood builds. These pieces embrace wider frames and beautiful leg ornamentation. This is a dining room that harmonizes differences and focuses on reuniting the old with new - much like a family gathering around the table.

## The Kitchen

Good food can be made in any kitchen, but it helps to have one full of all the bells and whistles. Our goal was to create a space that offered all the possible counter, drawer, and cabinet space for the average home. We hope the lovely atmosphere of this room will remind you of the sweet comforts of mom's cooking.
