Made at Home.
2026 Market Guide

Made at Home.

While much of the furniture industry faces overseas delays and rising costs, our builders continue to manufacture in Ohio. Every piece shown at the Ohio Furniture Market is made in the USA, reflecting a level of craftsmanship and consistency that sets this market apart.

But Made at Home reaches beyond geography. It speaks to the way the work is carried out each day. Many builders operate close to where they live, where craftsmanship is part of daily life and skills are passed from one generation to the next. That connection shows up in the care behind the work and the standards they uphold.

As members of the Ohio Furniture Guild, we remain committed to working together and supporting the retailers who rely on us.

As you explore this year's Market, we hope you see that difference and discover pieces your customers will be proud to bring home.

Welcome to OFM 2026.

For Generations, We've Built This Industry Together

From the forests that sustain us to the craftsmanship that defines us, Ohio's wood products community is rooted in shared values—hard work, stewardship, and taking care of one another.

The Ohio Forestry Association brings the entire supply chain together to protect that heritage. We are your voice in Columbus, your partner in navigating regulations, and your advocate when challenges arise that impact your business.

Membership in OFA strengthens not only your shop, but the families, mills, loggers, and landowners who make this industry possible.

Together, we safeguard the future.
Together, we grow stronger.
