SHOWCASE HOUSE Reference Guide

Presented by the Ohio Furniture Guild

THE SHOWCASE HOUSE

The Showcase House brings together pieces from multiple builders into complete room settings. Each space is composed to show how different styles, materials, and finishes can work together.

Walk through, take note, and gather ideas
you can bring back to your own floor.

2026 Colors of the Year

This year, what many are calling the New Traditional continues to take shape, where familiar forms are refined with intention and details are thoughtfully considered, allowing materials to speak for themselves.

Our designers worked closely with **Keim** and **Hood Distribution** to shape the 2026 Ohio Furniture Guild Colors of the Year, building a palette designed to move naturally across materials, styles, and spaces rather than settling into a single look.

Guided in part by Sherwin-Williams' color forecasts, the palette moves across four categories, from icy tints and spiced hues to historical colors and grounded neutrals, offering a range that feels both current and enduring.

All 23 Colors of the Year can be specified through your builder and sourced directly from Keim or Hood Distribution, making it easy to carry these finishes from inspiration to production.

The Selection Process

On Judging Day, the designers and five additional local experts came together to work through over 350 submissions, considering how each piece might contribute to a complete room setting.

Special thanks to LaVern Hershberger, Sheila Miller, Lori Miller, Gary Yoder, Preston Miller for their time, insight, and expertise.

The following day, the designers returned alongside partners from Keim, Hood Distribution, and Hershberger Hardware to shape the final direction of the Showcase House.

Together, they selected the colors, wood species, and hardware that would carry throughout each space, ensuring every element worked together as part of a complete room.

2026 Hardware of the Year

While hardware may feel like a small detail, it shapes how a piece is experienced.

Working with **Hershberger Hardware**, the designers selected the **2026 Hardware of the Year** with equal attention to function and aesthetic.

Proportion and placement were thoughtfully considered, with each choice made to bring balance and refinement to every piece.
